# One Step Test for SARS-CoV-2 Antigen (Colloidal Gold)

**Rapid, Reliable, Early and Easy  
Detection of COVID-19**

## Intended Use

The test kit is intended for qualitative detection of nucleocapsid protein antigen from SARS-CoV-2 in human nasal swab sample from patients suspected of COVID-19 infection by a healthcare provider.

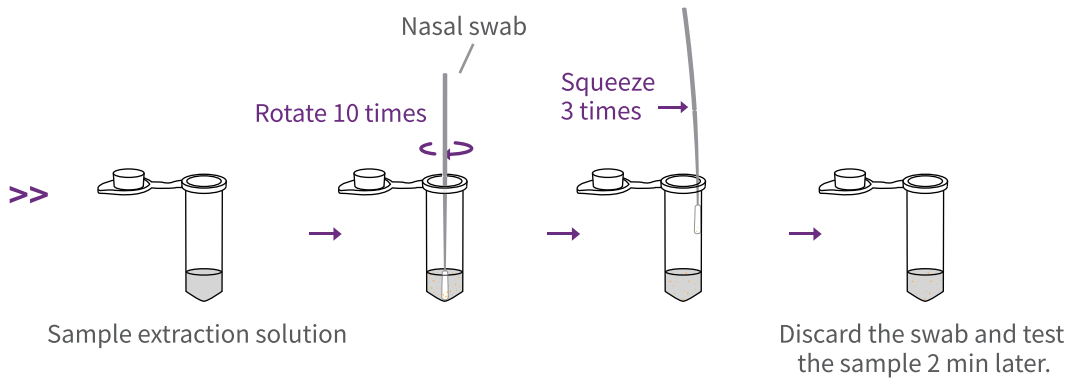

- **PCR-based tests** can detect small amounts of viral genetic materials.
- **Rapid antigen tests** detect the presence of viral proteins and can return positive results when a person is most infectious.
- - - **Antibody tests** detect the body's immune response to the virus.

## Characteristics

- Specimen type: nasal swab
- Early detection of SARS-CoV-2 infection
- Rapid test. The test result is available in 10-15 min.
- Simple operation and highly-efficient test.
- Read test results visually. Do not require test equipment.
