Test Menu

# IMMULITE Immunoassay Systems

Improve laboratory testing with one of the largest automated immunoassay menus available, from routine and specialty tests and over 400 allergens.

The IMMULITE® 1000 system is a bench top immunoassay analyzer. The extensive menu, high level reliability, and ease of use makes this system the right choice for laboratories with low-volume immunoassay tests.

IMMULITE 1000 Immunoassay System

The highly reliable IMMULITE® 2000 XPi system is easy to use and has one of the largest automated immunoassay menus available. Medium- to high-volume laboratories can incorporate specialty and allergy testing into routine workloads to improve productivity and efficiency.

IMMULITE 2000/2000 XPi Immunoassay System
